

NUMBER OF HOUSEHOLDS LIVING ON FREEHOLD LAND BY POLITICAL DISTRICTS, 2011

Of the total of **26,205 households** reported in the census 2011, **25 percent** or **6,607 households** lived on freehold lands. The map shows the distribution of 6,607 households living on freehold land by political districts in Samoa. For instance, the first pattern shows a total of **five political districts** that have a total of **70-1,970 households** living on freehold land. The last colour shows **seventeen** political districts with **0-10** households living on freehold land meaning some districts may not have families living on freehold lands. Overall, out of the 6,607 households living on freehold lands in the census 2011, 96 percent (6,368) lived on Upolu island compared to only 4 percent (239) living on the island of Savaii.
