

International Merchandise Trade (June 2026 Quarter)

Highlights of the Quarter

(June 2026 Qtr. compared with June 2025 Qtr.)

- ✓ Total exports increased by 38.9% to **\$22.7 million**.
- ✓ Total imports decreased by 3.6% to **\$327.9 million**.
- ✓ Resulting in a trade deficit of **\$305.3 million**.

Merchandise Exports

Total exports in the June 2026 quarter amounted to \$22.7 million, an increase of 38.9% from the same quarter in 2025 and 17.7% higher than the March 2026 quarter. This was mainly due to increased exports of taro, nonu juice, and re-exports of petroleum products, among others. (See Graph 1 and Table 1).

Graph 1: Merchandise Exports

Exports of Main Commodities

In the June 2026 quarter, **Mineral fuels, mineral oil, and products** remained the largest exports, with a total value of \$13.3 million, accounting for 58.5% of total exports. This was 49.6% higher than the June 2025 quarter, and 60.6% higher than the March 2026 quarter.

Electrical machinery and equipment exports increased by 99.7% to \$3.5 million from the June 2025 quarter, accounting for 15.4% of total exports. On the

other hand, compared to the March 2026 quarter, exports of electrical machinery and equipment decreased by 3.3%.

Fats and oils exports decreased by 33.2% from the June 2025 quarter to \$1.4 million, accounting for 6.4% of total exports. Compared to the March 2026 quarter, exports of fats and oils decreased by 29.3%.

All other commodities each accounted for less than 5.0% of total exports, with a combined value of \$4.5 million. (See Graph 2 and Table 2)

Graph 2: Export by Main Commodities
June 2026 Quarter

Exports by Region

The **Oceania** region recorded a 72.5% share of total exports, up 68.7% from the June 2025 quarter and 10.0% higher than the preceding quarter.

The **Asia** region accounted for 16.9% of total exports. The value of exports to Asia increased by \$2.4 million compared with both the June 2025 quarter and the March 2026 quarter.

Exports to the **Americas** region recorded a total share of 9.4%, decreasing by \$2.5 million in comparison to the June 2025 quarter, and by \$0.6 million when compared to the previous quarter.

Exports to the **Europe** region accounted for 1.2% of total exports. This was a 40.2% decrease compared to the June 2025 quarter, and a 77.8% increase from the preceding quarter. (See Graph 3 and Table 3)

**Graph 3: Exports by Region
June 2026 Quarter**

**Graph 4: Exports by Main Countries
June 2026 Quarter**

Exports by main Country of Destination

Exports to **New Zealand** accounted for 42.6% of total exports, valued at \$9.7 million. This was \$5.2 million higher than the June 2025 quarter, and \$1.2 million higher than the March 2026 quarter.

Exports to **Singapore** had a total value of \$3.5 million, accounting for 15.4% of total exports. It increased by \$2.7 million and \$2.3 million compared to the June 2025 quarter and the March 2026 quarter, respectively.

Exports to **Fiji** increased by \$1.3 million to \$2.1 million when compared to the June 2025 quarter (a 9.4% share of total exports). This was \$1.2 million higher than its value in the March 2026 quarter.

Exports to the **USA** were valued at \$2.1 million (9.3% share of total exports), decreasing by 54.7% and 22.2% compared to the June 2025 quarter and the March 2026 quarter, respectively.

Exports to **Tokelau** totaled \$1.9 million (8.2% of total exports), an increase of 28.8% when compared to the June 2025 quarter. This value was 23.5% lower than that of the March 2026 quarter.

Exports to **Australia** recorded a total share of 5.6% (\$1.3 million) of total exports. This value was 31.8% and 21.8% lower compared to the June 2025 quarter and the March 2026 quarter, respectively.

Exports to **other countries** recorded less than a 5.0% share each of the total export value, with a combined share of 9.5%. (See Graph 4 and Table 4).

Merchandise Imports

In the June 2026 quarter, the total imports were valued at \$327.9 million. This decreased by 3.6% when compared to its value in the June 2025 quarter, but was 3.7% higher than its value in the March 2026 quarter. (See Graph 5 and Table 5).

Graph 5 : Merchandise Imports

Import of Main Commodities

Mineral fuel, mineral oil, and related products, the top commodity in the June 2026 quarter, were valued at \$71.4 million, accounting for 21.8% of total imports. This value was 0.4% and 19.0% lower than the June 2025 and March 2026 quarters, respectively.

Meat and edible meat products, with a total value of \$24.0 million (7.3% of total imports), increased by 13.0% in comparison with the June 2025 quarter, and were 16.1% higher when compared to the March 2026 quarter.

Electrical machinery and equipment products increased by 27.9% compared to the June 2025 quarter, to \$23.3 million (7.1% of total imports). This value was 73.4% higher than the March 2026 quarter.

Nuclear reactors, boilers and appliances fell by 8.9%

compared with the June 2025 quarter, to \$22.6 million, accounting for 6.9% of total imports. Also, this was 54.7% higher than in the March 2026 quarter.

Vehicles, parts and accessories, with a total value of \$18.9 million (5.8% of total imports), recorded a decrease of 24.6% when compared to the June 2025 quarter, but were 25.7% higher when compared to the March 2026 quarter.

Other **remaining commodities** accounted for less than 5.0% share each of the total import value, with a combined total of \$167.7 million. (See Graph 6 and Table 5).

Imports by Region

Imports from the **Oceania** region in the June 2026 quarter held the largest share of 49.8% of total imports, increasing 10.1% and 25.8% over the June 2025 quarter and the March 2026 quarter, respectively.

The **Asia** region recorded a total share of 41.8% of total imports, decreasing 16.2% from the June 2025 quarter and 12.4% compared to the March 2026 quarter.

The **American** region accounted for 8.3% of total imports, up 2.6% from the June 2025 quarter and 8.2% higher than the March 2026 quarter.

The **Europe** region's share of total imports was 0.2%, decreasing by 73.3% and 89.4% from the June 2025 and March 2026 quarters, respectively. (See Graph 7 and Table 7).

Imports by major source markets

New Zealand, the leading source market for Samoa's imports, was valued at \$89.3 million and accounted for 27.2% of total imports. This was 10.4% lower than the June 2025 quarter, but was 21.7% higher than the March 2026 quarter.

Imports from **Singapore** were valued at \$68.2 million, contributing 20.8% of total imports. It decreased by 7.9% and 23.0% compared to the June 2025 quarter and the March 2026 quarter, respectively.

Imports from **Fiji** recorded a total value of \$39.1 million (11.9% of total imports), increasing 47.7% from the June 2025 quarter and 35.7% from the March 2026 quarter.

Imports from **Australia** recorded a total value of \$33.3 million (10.2% of total imports), increasing 55.9% over the June 2025 quarter and 26.4% compared to the March 2026 quarter.

Imports from **China** stood at \$28.1 million, accounting for 8.6% of total imports. It fell by 23.0% and 19.0% from the June 2025 quarter and the March 2026 quarter, respectively.

Imports from the **USA** increased by 0.5% to \$25.3 million compared to the June 2025 quarter, representing 7.7% of total imports. This was 12.8% higher than imports in the preceding quarter.

All **other countries** each accounted for less than a 5.0% share of total imports, with a combined share of 13.6%. (See Graph 8 and Table 8).

**Graph 8: Imports by Main Countries
June 2026 Quarter**

Trade Balance

The total value of imports was \$327.9 million, compared with total exports of \$22.7 million, resulting in a trade deficit of \$305.3 million for the June 2026 quarter. (See Graph 9 and Table 1).

Graph 9: Merchandise Trade Balance

The attached tables provide the user with more detailed information.

The September 2026 quarter report is expected to be available on the 18th of December 2026.

Technical Notes

The main source of import and export data comes from the administrative document, a completed customs form (Single Administrative data) required to be filled in by importers and exporters or customs agents when clearing merchandise inward and outward through the Ministry of Customs and Revenue.

Definitions

March 2026 quarter: (January, February, and March 2026)

Merchandise Exports

Includes both Exports and re-exports.

Exports refer to goods that are produced, manufactured, or significantly transformed within Samoa and then shipped to other countries.

Re-exports refer to goods that are previously imported into Samoa and then exported again without undergoing substantial transformation. These goods may be stored, repackaged, or redistributed before being sent to another country.

Capital goods are produced assets that are used repeatedly or continuously, for longer than one year, in industrial production processes. Examples are machinery, trucks, and aircraft.
